The City Clerk: The following ordinance was adopted on first reading, advertised in accordance with law and a hearing date set. It is now before you for public hearing, second reading and final passage:

#### **Ordinance relating to the preservation of affordable housing; establishing a three-year moratorium on the demolition of certain housing units.**

WHEREAS, there is currently a severe shortage of affordable housing for very low income residents in Newark as well as in the State of New Jersey; and

WHEREAS, during the past ten years more than 8,000 units of federally assisted housing affordable to very low income Newark residents (including public housing and privately owned federally subsidized housing) have been demolished, approved for demolition or otherwise retired from federal subsidy programs; and

WHEREAS, less than 25% of the 8,000 units removed from the marketplace have been or will be replaced with housing units affordable to Newark's very low income residents; and

WHEREAS, this Ordinance will help to ensure that the remaining federally assisted rental housing affordable to very low-income households is not removed from the Newark housing stock; and

January 23, 2002

WHEREAS, the Newark Municipal Council, the citizens of Newark and residents of any affected property must have an opportunity to review any proposed demolition of federally assisted housing and insure that no preservation of this housing as affordable is physically or financially possible; and

WHEREAS, this Ordinance will preserve and promote a supply of housing that is affordable to very low-income residents in the community; and

WHEREAS, this Ordinance will protect the economic, racial and ethnic diversity of the community by preventing displacement of very low income households; and

WHEREAS, the Newark Municipal Council has previously noted the urgent need to preserve affordable housing for Newark's very low income residents as evidenced by the Resolutions previously adopted in April, 2000, and October, 2001, by this Council calling for the preservation of Brick Towers; and

WHEREAS, the City of Newark has a compelling governmental interest in making housing available for its lowest income residents in order to prevent these residents from becoming homeless;

NOW, THEREFORE, BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY THAT:

**Section 1. Three year moratorium.** No current or previously federally assisted or subsidized housing units not in danger of collapse within the city of Newark may be demolished or approved for demolition for a period of three years from the date this ordinance takes effect. During this three-year period the City of Newark shall not issue any permits for the demolition of housing units protected by this moratorium.

**Section 2. Definitions.** As used in this ordinance,

- a. "Federally assisted or subsidized housing units" shall mean any residential dwelling or building occupied as of December 7, 2001, that was, as of January 1, 2000, receiving any project based or site-specific federal operating subsidy or housing assistance payment that made all or part of the units affordable to very low income residents. This shall also include rental housing units that received a development or rehabilitation subsidy sufficient to make such units affordable to its residents, provided that such units were deed-restricted with regard to rent levels or affordability at the time of development, and the deed restriction remains in effect.
- b. "Very low income" shall have the meaning given under the United States Housing Act of 1937.
- c. "Affordable housing" means housing units wherein the monthly rent payable by its tenants does not exceed 30% of the household's monthly adjusted income.

**Section 3.** During the pendency of this three year moratorium, the Newark Municipal Council shall take such action as it deems necessary to facilitate the development of a preservation plan to preserve federally assisted or subsidized housing units as affordable housing for very low income residents. In facilitating development of this preservation plan, the Council shall work with resident organizations of federally assisted or subsidized housing units and non-profit organizations or other developers willing to partner with resident organizations or other non-profit entities.

**Section 4.** During the pendency of this three-year moratorium no owner shall take any steps to induce, require or coerce residents to relocate from properties covered by this ordinance.

**Section 5.** It is hereby declared to be the legislative intent that if any provision of this ordinance, or the application thereof to any person or circumstances, is held invalid, the remainder of the ordinance and application of such provision to persons or circumstances other than those to which it is held invalid shall not be affected thereby.

**Section 6.** All prior ordinances or parts thereof which are inconsistent with this ordinance are hereby repealed, but only to the extent of such inconsistency.

January 23, 2002

Re: Brick Towers

Dear Councilman Bradley:

As you know, I attended the Council meeting on December 20, 2001 with a number of High Park Gardens residents. I am writing to you now to reinforce our opposition to the "Affordable Housing Preservation Ordinance", and urge you and your Council Colleagues to table it.

As President of High Park Gardens, a delegate to the National Association of Housing Cooperatives and Founding Member of the New Jersey Federation of Housing Cooperatives, I assure you that the residents and churches of the immediate neighborhood affected by the condition of Brick Towers fully support the efforts of the Department of Housing and Urban Development to have the Newark Housing Authority acquire this property, demolish it, and construct viable affordable housing. Brick Towers has been an embarrassing example to our City and has contributed to the stigma attached to our great City as being crime ridden and undesirable to working people attempting to provide a wholesome environment to live and raise a family. We are aware of the scare tactics that are being employed. You have been informed that if Brick Towers were demolished, that this would increase homelessness in the City. This is far from the truth. The homeless population in the City of Newark cannot be contributed to the depopulation and demolition of substandard housing. It is not difficult to review the statistics. Was homelessness increased when Hill Manor, Columbus Homes, Hayes Homes and Stella Wright were depopulated? Of course not. Residents were provided with relocation dollars and provided with Section 8 Vouchers. To be frank, this has allowed many residents to explore housing options such as renting an apartment in a two family home dwelling.

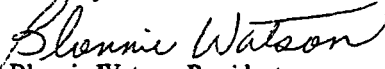

It is our understanding that in March 2000, the vacancy rate at Brick Towers was over 22%. It is also our understanding that a significant amount of families have been relocated since that time, which lead me to believe that the existing vacancy rate is probably in excess of 40%. The condition of the buildings, the incidents of crime, blight and degradation of quality of life all argue forcefully against the Federal Government financing any more social experiments at Brick Towers. It is long past time for the wrecking ball, and the development of viable affordable housing to take place.

January 23, 2002

The 462 families at High Park Gardens Cooperative, the 270 families at University Court Cooperative and the 216 families at the High Park Terrace Cooperative are also residents and voters in the City of Newark whose voices should not be ignored. This is our community. And who better than the residents of a community to determine what is best. I don't believe that lawyers from the suburbs, capitalizing on the fears of low-income residents should make the decision for us. HUD, the City and the Housing Authority should be responsive to the more than a handful of people, who have had more than thirty years to make Brick Towers a good place to live. Poor management is not the only reason for Brick Towers failure. The resident leadership and most recently for over four years Councilman Booker has failed to make Brick Towers viable. With this track record, we are not willing to gamble with the safety of our residents and viability of our development. We have suffered enough.

Anyone can demonstrate in front of the camera, or grandstand in a City Council meeting. We know the press loves this. But as responsible public servants, we feel it is imperative that you look to communities that have struggled to maintain decent affordable housing as the voice of reason in this debate and allow rational planning of the City of Newark for the 21<sup>st</sup> Century. By copy of this letter I am advising your colleagues, the Newark Housing Authority, the Mayor of the City of Newark, Governor McGreevey, Congressman Payne, our Senators and the Secretary of HUD of our position in this matter. I hope you will not allow a small but determined special interest to further blight our neighborhood.

Sincerely,

Blonnie Watson, President

Municipal Council of the City of Newark  
Robert P. Marasco, City Clerk  
920 Broad Street, 3<sup>rd</sup> Floor  
Newark, NJ 07102

Municipal Council of the City of Newark:

This letter is an update on the status and confirmation that we are receiving cooperation from all parties pursuant to the request for information, documents and answers to questions posed by the Municipal Council and by RosenfarbWinters during the course of our consultation.

As a result of our inquiries NEDC Riverfront has just repaid \$2.9 million, which represents the \$1.8 million loan and interest on the walkway loan at Riverfront. The Business Administrator and Finance Director each faxed copies confirming deposit of these funds.

We informed the Finance Director that there remains approximately \$500,000 in an NEDC FMC UDAG account which he should request return to the City. Additionally there remains approximately \$150,000 of UDAG funds at NEDC, which should also be requested returned to the City.

We were also informed that the tax payments due under the abatement for NEDC Riverfront Garage Project may be three years delinquent. We have spoken to the Finance Director about this matter and were informed that his office is looking into this matter. We are following up on this delinquency as well as any underpayment issues.

We have met several times after our last update with representatives of NEDC and have reviewed many documents, which were requested. There is still more data to review and we have additional meeting dates to review the additional information. NEDC's representatives have now been very cooperative.

We have also met several times since our last update with representatives of NEDC FMC and NEDC Riverfront to review data, documents and other information requested and have received full and complete cooperation from Mr. Faiella's staff. We have more information to review and have another meeting date for April 3, 2002 to continue our review of the information.

We have also received a number of documents from the Corporation Counsel of the City of Newark regarding the information request. We are in the process of reviewing this data.

We have also been communicating with the Finance Director who informed us that he has all of the information we requested set aside for our review. A meeting is scheduled for next week on April 12, 2002 at the Finance Director's office to review all of the information.

We will keep you informed and advised as our work progresses.

Sincerely,

Keith S. Balla, CPA
